

### In England

Proctor Neil, of North Bay, son of Mr. and Mrs. C. J. Neil, who has been in England as an engineer with Allied War Supplies, a concern working on important war assignments, may return soon to Canada to continue his engineering work. With 17 other graduate engineers he went to England some time ago to serve in valuable capacities. They may, on their return, be posted to new Canadian war factories. Proctor Neil was an outstanding boxer and rugby player during his North Bay Collegiate days.
